

Remote Deposit Capture

Remote Deposit Capture allows you to deposit checks from your place of business using your existing internet connection.

- Deposit checks into your 21st Century Bank business account without ever leaving the office.
- Reduce trips to the bank
- Same day credit if processed before the daily cut off time
- Secure transmissions
- Eliminate the fear of lost or stolen checks
- Utilizes easy to use desktop scanner
- Help desk available for questions or concerns
- 5:10 PM CST Deposit Cut-off

We have teamed with one of the nation's largest Remote Deposit Capture solution providers who are committed to getting you up and running quickly. All you need to get started is an existing PC with Internet access and a check scanner, which is delivered to you by our service partner.

Our remote deposit software will allow you and authorized co-workers to view previously scanned deposits for check research and deposit.

Our partner's friendly Help Desk support provides comprehensive Web-based training and they are always available if you have questions.
